The products and number of tranches available in this solicitation are provided in Table 3. For example, the RES-12-Dec25 product represents Default Supply for the RES Class for the supply period from December 1, 2025 through November 30, 2026.

## I.3. Load Caps for Products Available

Each Class has "Load Caps", which are limits on the number of tranches of Default Supply that an RFP Bidder can bid and serve for that Class. The Load Caps ensure that there will be a diversified pool of Default Suppliers for each Class. The Load Caps for the RES and SC Classes are set so that the Default Service customers of that Class have no more than a 50% exposure to any one Default Supplier at any given time. The Load Cap for the CCI Class is set so that the Default Service customers of that Class have no more than a 75% exposure to any one Default Supplier at any given time. The Load Caps in this solicitation are provided here:
