PECO Procurement: Fall 2012 Solicitation Results

In the PECO Energy Default Service Plan settlement filing, which was approved by the Pennsylvania Public Utility Commission on April 16, 2009, parties agreed to the public release of certain information regarding the results of each solicitation. The Fall 2012 solicitation was held on September 17, 2012 for supply starting on December 1, 2012.

The information in this document is provided in accordance with the PUC Order.

I. Block Energy RFP

Table 1 – Peak & Baseload Products in the Fall 2012 Solicitation

Product Type	Peak (5x16)	Baseload (7x24)	
Supply Period	Dec 2012 – Feb 2013	Jan 2013 – Dec 2013	Jan 2013 – Dec 2014
Weighted average winning bid price (\$/MWh)	\$42.63	\$38.24	\$38.88
Number of blocks procured	3 blocks (30MW total)	6 blocks (60MW total)	4 blocks (40MW total)

Exhibit G further states that once all the solicitations for a given supply period have been completed, the following information will be released: “the average bid price for each product, the rate impact for each class, the number of tranches or blocks of each product that were filled, the number of suppliers that were qualified to submit bids in each solicitation, the number of winners over all solicitations, the number of tranches of each product awarded to each winner, and (for full requirements products) the percentage of load awarded to each winner.”

Table 2 – Block Energy Participation

Product		B-12-Jan2011	B-24-Jan2011	B-60-Jan2011	P-2-Jan2011	P-3-Jun2011	P-3-Dec2011	B-12-Jan2012	P-3-Jun2012	P-3-Dec2012	B-12-Jan2013	B-24-Jan2013
