Class & Product Information:

A "Class" is a grouping of PECO's retail customers. There are four Classes: Residential ("R"), Small Commercial ("SC"), Medium Commercial ("MC"), and Large Commercial and Industrial ("LC&I"). The Load Cap for a Class and an RFP Bidder is set so that the customers of that Class have no more than a 65% exposure to any one Default Supplier at any given time. For each Class, the number of tranches bid by an RFP Bidder cannot exceed the Load Cap.

LC&I Class. The available tranches and load cap for this RFP are the same for all RFP Bidders and are presented below:

Number of tranches available of each product				
Type	Class	Supply Period	Available Tranches	Load Cap
Fixed-Price	LC&I	January 1, 2011 to December 31, 2011	20	13

R Class, SC Class & MC Class. The available tranches and load caps for the R, SC and MC Classes depend on whether an RFP is also a current Default Supplier. The Load Cap for an RFP Bidder that is a Default Supplier is the Maximum Load Cap less the number of tranches won in previous solicitations. For the R and SC Classes, the Load Cap applies to the 29-month product as well as to the combination of tranches for the 17-month and the 29-month products. RFP Bidders that did not have winning Bids in the a previous solicitation can bid up to the available number of tranches for the R Class.
