Class & Product Information:

A "Class" is a grouping of PECO's retail customers. There are four Classes: Residential ("R"), Small Commercial ("SC"), Medium Commercial ("MC"), and Large Commercial and Industrial ("LC&I"). The Load Cap for a Class and an RFP Bidder is set so that the customers of that Class have no more than a 65% exposure to any one Default Supplier at any given time. For each Class, the number of tranches bid by an RFP Bidder cannot exceed the Load Cap.

Number of tranches available			
Type	Class	Supply Period	Available Tranches
Fixed-Price	Residential	June 2012 - May 2013	10
Fixed-Price	Residential	June 2012 - May 2014	7
Fixed-Price	Small Commercial	June 2012 - May 2013	10
Spot-Price	Small Commercial	June 2012 - May 2013	3

Spot-Price	Medium Commercial	June 2012 - May 2013	3
Spot-Price	Large Commercial & Industrial	June 2012 - May 2013	54

The Load Cap for a Class and an RFP Bidder is set so that the customers of that Class have no more than a 65% exposure to any one Default Supplier at any given time. The Load Cap for an RFP Bidder that is Default Supplier will take into account tranches won in previous solicitations. The constraints below are cumulative and include tranches won in all solicitations to date:

1 The Load Cap for the R Class will apply as follows: (i) an RFP Bidder is limited to 9 tranches of the 24-month Fixed-Price product including tranches of this product won in previous solicitations and tranches bid for the 24-month Fixed Price product in this solicitation; and (ii) an RFP Bidder is limited to 30 tranches of the 12-month Fixed-Price, 24-month Fixed-Price and 29-month Fixed-Price products combined, including tranches of these products won in previous solicitations and tranches bid for the 12-month Fixed-Price and 24-month Fixed-Price products in this solicitation. An RFP Bidder that is not a Default Supplier for the R Class can bid on all available R Class tranches in this Winter 2012 Solicitation.

2 The Load Cap for the SC Class will apply as follows: an RFP Bidder is limited to 18 tranches of the 12-month Fixed-Price, 29-month Fixed-Price, and 12-month Spot-Price products combined, including tranches of these products won in previous solicitations, and tranches bid for the 12-month Fixed-Price, and 12-month Spot Price products in this solicitation. An RFP Bidder that is not a Default Supplier for the SC Class can bid on all available SC Class tranches in this Winter 2012 Solicitation.

3 The Load Cap for the MC Class will apply as follows: an RFP Bidder is limited to 14 tranches of the 12-Month Fixed-Price, and 12-Month Spot-Price products combined, including tranches of these products won in previous solicitations, and tranches bid for the 12-month Fixed-Price, and 12-month Spot-Price products in this solicitation. An RFP Bidder that is not a Default Supplier for the MC Class can bid on all available MC Class tranches in this Winter 2012 Solicitation.

4 The Load Cap for the LC&I Class will apply as follows: an RFP Bidder is limited to 35 tranches of the 12-month Spot-Price product in this solicitation. An RFP Bidder that is not a Default Supplier for the LC&I class can bid up to 35 tranches for the LC&I Class in this Winter 2012 Solicitation.
